

Welcome

Joy Ganter, Principal

Welcome to Glenmore State High School's web site. I hope you find our site informative and easy to use.

Glenmore High School is a modern, progressive secondary school providing quality education for students from years 8 to 12. Since its establishment in 1975, Glenmore High has earned a reputation for high quality educational programs and services which develop a passion in students for learning and life.

Our stated purpose is to support the learning and development of the whole person for present and future pathways. At Glenmore High we achieve this through the provision of challenging curriculum in a caring learning community.

We work with our students to support them to become learners and achievers, respected and respectful individuals with self discipline and contributors to our community.

Based on our school motto "Concern, Commonsense, Courtesy", the values we instil in our students include:

- * Care and Tolerance
- * Respect and Identity
- * Achievement
- * Responsibility and Integrity

Our professional staff offer a disciplined, stimulating and challenging learning environment which encourages students to achieve their full potential. We provide a personalised approach to educational services and focus on developing the whole student: academically, physically, socially, emotionally and spiritually.

High standards in all pursuits at Glenmore High School are based upon our current vision: "Excelling Together".

We understand and value team work and partnerships. We especially recognise the significance and power of the parent-school partnership. I look forward to meeting you and working together as we progress, in partnership, the development of our young adults.

Joy

Joy Ganter
